Category	Description	Reviewers Comment	Action taken by reviewed group
Build	Could you clone from Git and build using the README file?	Yes. Although, nodemon was required. I suggest mentioning such requirement in README file.	Changed start script to use node instead of nodemon
Legibility	Was the flow sane and were variable names and methods easy to follow? Does the code adhere to general guidelines and code style?	-follows good coding practices (e.g. good use of comments) - flow is sane, variable names and mehtods are easy to follow	None
Implementation	is it shorter/easier/faster/cleaner/safer to write functionally equivalent code? Do you see useful abstractions?	- not that I am aware of - no useful abstractions that I could find	None
Maintainability	Are there unit tests? Should there be? Are the test covering interesting cases? Are they readable?	Unit tests do not appear to be present. But, I don't think they are necessarily required for this specific project.	None
Requirements	Does the code fulfill the requirements?	Yes, it appears that it satisfies the requirements.	None
Other	Are there other things that stand out that can be improved?	No, they did solid work.	None
